

In the context of the celebration of Christmas two continental encounters took place: in Bogota (Colombia) for America and in Warsaw (Poland) for Europe. The purpose was first of all to strengthen the sisterly relationship on the continental level, know more each other and the diversity of mission. As the period of “listening” is being completed, there were presentations of the results of the survey (in base of questionnaires, personal and communal) in order to prepare the next step in the process: the discernment. Out of the “picture” of our reality and with the desire to respond to the challenges of the world the sisters gathered have shared and elaborated some criteria for the presentations of the results of questionnaires in the Entities and for the discernment of the communities and apostolic mission.

To fulfill God’s design on our congregation: “one family one heart” the process of restructuring shall continue

RESTRUCTURING PROCESS
