

From 13 to 22 October in Reus we celebrate the XVIII Meeting of Major Superiors and Delegates with the General Government.

The motto that guides and encourages our reflection and sharing is: “Strengthen us in You, Christ our rock .... make our steps firm on the path yet to build”.

Sharing and reflecting on the reality of the congregation streaming from the reorganization of our Entities, we seek together the essential aspects to build on this new Congregational time in perspective of coming XVII general chapter. It is a training and illuminative space on various topics, including some elements of universal and proper law. But it is above all, a space for listening to the Holy Spirit and his invitations He addressed us with at this time in history.

In this House of Reus, so significant for each Claretian missionary, we experience the feeling to be especially guided by Maria Antonia Paris on the rock of the Evangelical inspiration she transmits.
