

In different places all over the world the year of Consecrated Life begins with celebrations, prayer services and commitment to enliven our mission.

***The objectives pointed out for this year are:***

Give thanks to God for the GIFT of consecrated life, especially in this 50 years of its renewal streaming from Vatican II. Embrace the future with hope and trust in the Lord.

Live out the present time with passion, evangelizing our vocation and bear witness to the beauty of the following Christ in the world, in so many different forms of consecration.

Being aware of our claretian charismatic character to "search in everything the conversion of all consecrated persons devoted to the service of God" (Goal and Aim)

we want to correspond to this convocation of the Holy Father, in communion with all consecrated people, to bless, praise and give thanks to God, for His call to love and serve.
